

SAP PPQM

Syllabus

TECHTONIC-LAB

SAP PP-QM (Production Planning & Quality Management)

TECHTONIC-LAB

Tools & Major Topics Covered

SAP PP (Production Planning)

- SAP S/4HANA Navigation
- Enterprise Structure for PP
- Material Master for Production
- Bill of Material (BOM)
- Work Center
- Routing
- Production Version
- Demand Management
- Material Requirements Planning (MRP)
- Planned Orders
- Production Orders
- Capacity Planning
- Shop Floor Control
- Repetitive Manufacturing
- Batch Management
- Reporting & Production Analytics

SAP QM (Quality Management)

- Quality Planning
- Quality Inspection
- Quality Notifications
- Quality Certificates
- Quality Control Processes
- Quality Master Data
- Vendor Quality Management

- In-Process Inspection
- Final Inspection
- Integration with MM, PP & SD

Integration Topics

- PP-MM Integration
- PP-SD Integration
- QM-MM Integration
- QM-PP Integration
- Production to Inventory Flow
- End-to-End Manufacturing Process

Projects & Case Studies

- Manufacturing Industry Scenarios
- Automotive Industry Use Cases
- FMCG Industry Use Cases
- Pharmaceutical Industry Use Cases
- End-to-End SAP PP-QM Project

Introduction to SAP ERP & SAP S/4HANA

- ERP Concepts
- SAP Overview
- SAP Modules Overview
- SAP S/4HANA Introduction
- Business Processes in Manufacturing
- SAP GUI & Fiori Navigation
- Organizational Structure Overview

SAP PP – Production Planning

Enterprise Structure

- Client
 - Company Code
 - Plant
 - Storage Location
 - MRP Area
 - Business Area
-

PP Master Data

Material Master

- Material Types
- MRP Views
- Work Scheduling View
- Production Storage Location
- Procurement Types

Bill of Material (BOM)

- BOM Creation
- BOM Usage
- BOM Components
- Alternative BOM
- BOM Explosion

Work Center

- Work Center Creation
- Capacity Planning
- Cost Center Assignment

Routing

- Routing Creation
- Operations
- Work Centers Assignment

- Production Activities

Production Version

- BOM and Routing Assignment
 - Version Management
-

Demand Management

- Planned Independent Requirements (PIR)
 - Customer Requirements
 - Forecasting Concepts
-

Material Requirements Planning (MRP)

- MRP Concepts
 - MRP Run
 - MRP Types
 - Planning Strategies
 - Procurement Proposals
 - Stock Requirements List
 - MRP Controller
-

Production Planning Execution

Planned Orders

- Creation
- Conversion
- Scheduling

Production Orders

- Creation
- Release
- Confirmation

- Goods Issue
 - Goods Receipt
 - Settlement
 - Closure
-

Capacity Planning

- Capacity Requirements
 - Capacity Evaluation
 - Capacity Leveling
-

Shop Floor Control

- Order Processing
 - Production Confirmation
 - Variance Analysis
 - Production Monitoring
-

Repetitive Manufacturing

- REM Concepts
 - Backflush
 - Production Versions
 - Reporting Points
-

Batch Management

- Batch Creation
 - Batch Determination
 - Batch Classification
 - Batch Traceability
-

SAP QM – Quality Management

Quality Planning

Quality Master Data

- Material Specification
- Inspection Characteristics
- Sampling Procedures
- Master Inspection Characteristics (MIC)

Inspection Planning

- Inspection Plan Creation
 - Inspection Methods
 - Sampling Procedures
-

Quality Inspection

Goods Receipt Inspection

- Inspection Lot Creation
- Usage Decision
- Defect Recording

In-Process Inspection

- Inspection During Production
- Process Quality Control

Final Inspection

- Finished Goods Inspection
 - Quality Approval Process
-

Quality Notifications

- Notification Types
- Defect Recording
- Corrective Actions

- Preventive Actions (CAPA)
-

Quality Certificates

- Certificate Profiles
 - Certificate Processing
 - Customer Quality Documentation
-

Vendor Quality Management

- Vendor Evaluation
 - Source Inspection
 - Procurement Quality Control
-

SAP PP-QM Integration

PP and QM Integration

- Inspection During Production
- Quality Check in Production Orders
- Process Quality Monitoring

MM and QM Integration

- Goods Receipt Inspection
- Vendor Quality Evaluation
- Material Quality Status

SD and QM Integration

- Customer Quality Complaints
 - Delivery Quality Checks
 - Customer Returns Management
-

Reporting & Analytics

- Production Reports

- Capacity Reports
 - Order Reports
 - MRP Reports
 - Quality Reports
 - Defect Analysis
 - KPI Dashboards
 - SAP Fiori Analytical Apps
-

End-to-End Business Scenarios

Manufacturing Cycle

- Demand Planning
- MRP Run
- Purchase Requisition Generation
- Production Order Creation
- Goods Issue
- Production Confirmation
- Quality Inspection
- Goods Receipt
- Inventory Update

Quality Management Cycle

- Vendor Inspection
 - Incoming Inspection
 - In-Process Inspection
 - Final Inspection
 - Customer Complaint Handling
-

Capstone Project

End-to-End SAP PP-QM Implementation Project

- Enterprise Structure Configuration
 - Master Data Creation
 - BOM & Routing Setup
 - MRP Configuration
 - Production Order Processing
 - Quality Inspection Setup
 - Quality Notifications
 - Reporting & Testing
 - UAT Documentation
 - Go-Live Support
-

Additional Offerings by TECHTONIC-LAB

- SAP S/4HANA Access from Day 1
- Real-Time Manufacturing Scenarios
- Industry Case Studies
- Resume Building
- LinkedIn Profile Optimization
- Mock Interviews
- Corporate Grooming
- End-to-End Capstone Project
- Interview Question Bank
- Placement Assistance
- SAP PP-QM Certification
